

I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide any kind of programming that we the public want. This is just one more example of "big business" trying to swat down the little guy.

This country was founded on everyone having an equal chance to make it in the market place. The only problem is those who have deep pockets have congress ear. I am counting on the FCC to make the right choice and defend XM constitutional right to broadcast anything it's subscribers want.
